Dear Jane:

Enclosed is a copy of the 1989 Broadcasting and Cable Trend Report put out by the FCC's EEO Division. As you will see, it reports that while overall employment in the broadcast industry declined from 1988 to 1989, female and minority representation increased .3% and .2%, respectively. For the same period of time the 1989 National Labor Force showed that women and minorities made up 45.2% and 21.5% of the work force.

You may find this material helpful as you generally review the employment figures of each of your operating stations. It will provide a worthwhile national standard which, even though it does not specifically apply, will show you the trends.

Best regards, sincerely,

  
Colby M. May

RE: Bag and Strainer Filters for Transmitter Coolant  
DATE: June 14, 1990

I found a local rep. for Commercial Filters here in Portland who has given us the best price we've seen yet for our specified filter units. Mike Stanley of Montgomery Brothers has given me a quote for a quantity of 5 units (attached), two for my system, and three for Dick Engh at KTBW. Dick and I talked about my taking delivery here in Portland and getting his units up to him somehow. This company is flexible and will take two different P.O.s, one for National Minority, and another for Trinity Broadcasting. I don't know how long he will hold good on these prices though. Since the amounts are well over our spending limits, I'm faxing the quotation to you for your purchasing department to handle down there after your return from abroad if all this looks okay to you. If any questions, please call!

Thanks,
